

Preventive care medications are drugs that can help you prevent health problems or problems caused by a health condition. The OGB Pelican HSA 775 CDHP (consumer-driven health plan) Maintenance/Preventive Care Drug List shows certain brand and generic preventive drugs covered by your plan.

Drugs on this list are covered with no deductible when you fill them at a network pharmacy, though they may require you or your doctor to follow some rules based on your plan. Please see your benefit plan for a full list of these rules, which are listed as benefits, limitations and exclusions.

Key: BRAND medications are listed in UPPERCASE and generics in lowercase.
