### **Precision Blue may be a good fit if you:**

- Are willing to seek care from high-quality providers in a defined network in exchange for lower premiums.
- Are willing to choose a primary care provider and work with them to get the most value from your plan.
- Are willing to check our provider directory at [www.lablue.com/precision-blue](http://www.lablue.com/precision-blue) before a doctor visit or hospital stay to find providers in the Precision Blue network.

### **You may want to look at other types of health plans if you:**

- Are willing to pay higher monthly premiums to have a broader network and avoid unexpected out-of-pocket expenses.
- Need to seek care outside of the Precision Blue network.

### **Blue Cross and Blue Shield of Louisiana and HMO Louisiana, Inc., are Qualified Health Plan Issuers on the Health Insurance Marketplace.**

If there is any discrepancy between the information in this brochure and the policy, the policy prevails. Premium will vary with the level of benefits chosen. For complete information, please refer to the policy.

Benefits are based on allowable charges. Allowable charge is defined as the lesser of the billed charge or the amount established or negotiated by Blue Cross and Blue Shield of Louisiana and HMO Louisiana, Inc., as the maximum amount allowed for all provider services covered under the terms of the policy.

NOTICE: HEALTHCARE SERVICES MAY BE PROVIDED TO YOU AT A NETWORK HEALTHCARE FACILITY BY FACILITY-BASED PHYSICIANS WHO ARE NOT IN YOUR HEALTH PLAN. YOU MAY BE RESPONSIBLE FOR PAYMENT OF ALL OR PART OF ANY FEES FOR THOSE OUT-OF-NETWORK SERVICES, IN ADDITION TO APPLICABLE AMOUNTS DUE FOR COPAYMENTS, COINSURANCE, DEDUCTIBLES AND NON-COVERED SERVICES.

SPECIFIC INFORMATION ABOUT IN-NETWORK AND OUT-OF-NETWORK FACILITY-BASED PHYSICIANS CAN BE FOUND AT [WWW.LABLUE.COM/HBP](http://WWW.LABLUE.COM/HBP) OR BY CALLING THE CUSTOMER SERVICE PHONE NUMBER ON YOUR ID CARD.

Utilization Management decision-making is based only on appropriateness of care and service and existence of coverage. Practitioners or other individuals are not specifically rewarded for issuing denials of coverage. Financial incentives for Utilization Management decision makers do not encourage decisions that result in underutilization.

## Precision Blue: *Get More, Spend Less!*

Your Select Network plan is designed to save you money. In exchange for these savings, you must be willing to seek care from primary care providers, specialists and local hospitals in your network. There's no correlation between cost and quality—*a limited number of providers doesn't mean limited services*. Select Network plans offer the same level of care and benefits as other broader network plans, including emergency room services.

### What's special about Precision Blue?

- **Your network of doctors and hospitals is more defined** than other insurance plans. But you still have a full network of primary care providers, specialists and other healthcare providers in your area.
- **You have a coordinated care team** of healthcare professionals who talk to each other and help you get the right care in the right place.
- **Staying in-network is very important!** As long as you get care within your Precision Blue network, you will always pay less than if you get care outside of the network.
- **In-network tiering offers more value.** Precision Blue members with copayment plans have two in-network tiers of cost sharing for provider visits: Enhanced Tier 1 and Tier 1. Enhanced Tier 1 includes FMOLHS primary care providers (PCPs) and specialists. For your convenience, providers are identified by tier in our online provider directory. Please search for participating providers at [www.lablue.com/precision-blue](http://www.lablue.com/precision-blue).

# Your Precision Blue Network

The Precision Blue network offers select doctors and hospitals at a lower price than our traditional PPO plans. By visiting only in-network providers, Precision Blue members receive outstanding, coordinated personal care while keeping healthcare expenses as low as possible.

## Understand Your Plan

Precision Blue offers care from select doctors and hospitals at a lower premium price than our traditional PPO plans. When you choose care within the plan's network, your cost sharing is lower than if you select out-of-network care. Precision Blue offers two tiers of in-network benefits. Here's how it works:

- **Enhanced Tier 1:** Enhanced Tier 1 includes FMOLHS primary care providers (PCPs) and specialists.
- **Tier 1:** Tier 1 includes FMOLHS facilities, as well as in-network participating PCPs and specialists that are not in Enhanced Tier 1.

Our online provider directory makes it easy to identify Enhanced Tier 1 and Tier 1 providers. Please visit [www.lablue.com/precision-blue](http://www.lablue.com/precision-blue).

## Selecting a Primary Care Provider

Precision Blue is designed with an innovative, coordinated care model at its core. For this reason, you must pick a primary care provider (PCP) in your network to handle most of your medical needs when sick or injured. This is a doctor practicing in general practice, family practice, internal medicine or geriatrics for adults, or pediatrics for children. You may also select a nurse practitioner (NP) or physician assistant (PA) as your PCP if he or she is set up in our system as a network primary care provider.

You must choose a PCP. If you do not choose a PCP, one will be chosen for you. You can change your PCP at any time by logging into your account at [www.lablue.com/login](http://www.lablue.com/login) or by calling the Customer Service number on the back of your ID card.

## What Is Coordinated Care?

One of the main benefits of a Select Network plan is the coordinated care you'll receive. This means that all of your healthcare professionals will be working as a team to give you the right care, at the right time and in the right places to keep you healthy.

When you use in-network Precision Blue providers, your doctors and hospitals work together on your behalf to organize your care. This can result in better health outcomes and lower costs.

Coordinated care works best when you work with your doctors as an equal partner. With Precision Blue, you will get the best care when:

- You choose a primary care provider (PCP) in the Precision Blue network whom you will see when you're sick or injured.
- You are proactive about your health by:
  - Seeing your in-network PCP regularly
  - Following your care plans and getting routine exams, checkups and tests
  - Taking medicines as they are prescribed to you
  - Taking advantage of the preventive and wellness services included in your plan at no additional cost to you
  - Letting your PCP know when you see other doctors

# Quality Blue Program

As a Louisiana Blue customer, your health is important to us. That's why we are working with healthcare providers around the state through our Quality Blue (QB) program—together, we can help you have a better, easier healthcare experience. Our Quality Blue program is part of your health benefits. If you are seeing a Quality Blue provider, you are already included in the program.

## How does the Quality Blue program work?

Through our Quality Blue program, Louisiana Blue makes your health claims information available in a secure manner to your Quality Blue provider. This helps your provider learn more about your health history and anything that's happened since your last visit. This is to make sure you get what you need to stay on top of your health.

## What do I get out of seeing a Quality Blue provider?

- **Keeping up with care**

Seeing your Quality Blue provider can help you stay healthy and catch any problems early when they are easier to treat. Everyone should have at least one checkup a year. If you have a long-term health condition, your provider may recommend you have visits more often.

- **Reminders**

Since Quality Blue providers have more information about your health history, they can send notices about important screenings, tests or shots you might need.

- **Lower copays**

If you are on a Louisiana Blue health plan that has copayments for primary care office visits, you may get lower copayments for office visits with a Quality Blue provider.

## Is my doctor in the Quality Blue program?

Our Quality Blue program currently includes general practice, family practice, internal medicine, pediatrics and geriatrics providers. You can ask your provider if they are in the Quality Blue program or look them up in our directory at [www.lablue.com/precision-blue](http://www.lablue.com/precision-blue). Quality Blue providers have an indicator as shown below:

**QUALITY BLUE PROVIDER**

Check out [www.lablue.com/QualityBlue](http://www.lablue.com/QualityBlue) to learn more about how this program helps you. If you have questions about how Louisiana Blue may share your claims information with your provider's office, please call the Louisiana Blue Information Governance Office at (225) 298-1751.

# Your Cost Share

These are the terms you need to know to help you understand your plan.

- **Premium**

A premium is the monthly payment you have to pay for your plan.

- **Copayment**

If your plan has a copayment, or “copay,” this means that you pay a set dollar amount, or flat fee, for some kinds of care, such as at your doctor’s office or pharmacy. Your copayment will be a lower amount for a primary care provider and higher for specialists.

- **Deductible**

If you choose a plan with a deductible, this is the amount you must pay up front before your insurance pays for your care. If your plan also has copayments, these copays will not count toward your deductible. Your plan may have an in-network deductible and a separate out-of-network deductible.

- **Coinsurance**

Once you’ve paid your deductible, you’ll pay a set percentage, or coinsurance, for your care. You will pay the lowest coinsurance amount when you stay in-network for care.

- **Maximum Out-of-Pocket**

What you pay toward your medical and pharmacy deductibles, copayments and coinsurance applies to your maximum out-of-pocket. Once you’ve reached your maximum out-of-pocket, your insurance will pay 100% of the cost of covered care for the remainder of the calendar year. A separate out-of-pocket-maximum will apply for services you receive out of your network.

- **Coordination of Benefits**

Dual health coverage is becoming more common because of working couples with dual incomes, working Medicare beneficiaries and the extension of dependent coverage to children up to age 26. Louisiana Blue has guidelines to determine which plan will pay primary and which plan will pay secondary. These rules are outlined in the “coordination of benefits” provisions in your contract, the document that explains your benefits and how they are determined.

## Telehealth for Convenient, Affordable Care

### What is telehealth?

Telehealth, also called virtual care, is an easy and convenient way to be treated for routine, nonemergency health conditions or to access behavioral health services and other forms of care through an online connection. For those with telehealth benefits, virtual care is a great way to access and stay connected with a network provider. Some providers volunteer to be recognized and searchable in the online Louisiana Blue provider directory as providers of telehealth services. We recommend members reach out directly to their network provider for details on how to connect using telehealth. Louisiana Blue members can call the Customer Service number on their ID card to learn about their telehealth benefits.

If a member's regular provider does not offer telehealth options or is not available, Louisiana Blue offers members access to BlueCare, our online virtual care platform with virtual medical care 24/7 and scheduled behavioral health appointments.

## **BlueCare:** *Get Care From Anywhere!*

Louisiana Blue members and any dependent who are covered on their plans can access online medical and behavioral health visits. BlueCare providers are U.S.-trained and board-certified. BlueCare providers are available in all 50 states. BlueCare meets state and federal healthcare services laws, is HIPAA-compliant and is as valid as an in-person visit.

### **Medical Visits:**

- BlueCare costs less than emergency room and urgent care centers.
- BlueCare lets you see a medical provider online, 24/7, to treat routine, nonemergency health conditions. Your visit cost will depend on your plan type and benefits.

### **Behavioral Health Visits:**

- Online appointments for behavioral health needs are available with BlueCare. Simply log in and schedule a visit with a psychology or psychiatry provider.
- BlueCare behavioral health appointments can be a good service for members who may be experiencing depression, grief, stress or anxiety, who are dealing with life transitions ... and more.

Prescription drugs may be prescribed if needed. Prescription availability is defined by physician judgment; certain types of medication may not be prescribed. Visit cost will depend on the plan type and benefits. You can use any major credit card and even HSA or FSA cards to pay for BlueCare. Your card will not be charged until your visit is over.

# Your Precision Blue Benefits

Know before you go: Visit [www.lablue.com/precision-blue](http://www.lablue.com/precision-blue) or use the Louisiana Blue mobile app to search for participating providers in your network.

## When you need care, consider your options and costs:

- **Your primary care provider or specialist** \$

If you are sick or injured but it's not a life-threatening emergency, call your doctor and set up an office visit. Make sure that your primary care provider is in your network, as well as any specialists you may see.

- **BlueCare: 24/7 online doctor** \$

With BlueCare telehealth, you can see a doctor online 24/7 to treat routine, nonemergency health conditions. It's easier, faster and cheaper than emergency room or urgent care centers. Visit [www.BlueCareLA.com](http://www.BlueCareLA.com) to enroll and learn more.

- **Urgent care center** \$\$

If you have an illness or injury that you need to have looked at quickly but it's not an emergency, urgent care centers have doctors who can treat you. Most urgent care centers have night and weekend hours, and the doctors there can often do X-rays, lab work or stitches. The wait time will be less than in an emergency room, and you can save money. Call ahead to make sure the urgent care clinic is in your network.

- **Emergency room** \$\$\$\$

If you have a life-threatening or serious illness or injury, call 911 or go to the nearest emergency room. When it's a true emergency, your insurance will pay for your care no matter which hospital you choose. However, once you're stabilized, we may ask you to move to a hospital in your network.

Look for these signs to tell whether it's an emergency:

- Fainting or unconsciousness
- Breathing trouble or choking
- Nonstop bleeding
- Coughing or vomiting blood
- Chest pain
- Sudden or severe pain anywhere
- Sudden dizziness

- **Planned stays in the hospital**

**If you go to an in-network hospital:**

As long as you're staying at an in-network hospital and your doctor receives an authorization from us before your stay, then you will get in-network benefits.

**If you go to another hospital that is outside of the network:**

If the hospital is outside of your Precision Blue network, you will need prior authorization to determine whether your stay is medically necessary. You will pay higher out-of-network costs. You may also be balance billed.

- **Lab services**

Precision Blue has a select laboratory network. If you go to a lab in the network, you will pay less than you would for tests done by a lab outside of the network. If you have tests done outside of the network, you may have to pay higher costs, up to the billed charge.

- **Prior authorization**

Some kinds of care, including inpatient and outpatient services and supplies, require a prior authorization from us, which will determine the medical necessity of the service or supply. Your in-network provider will take care of the authorization for you.

For a list of services and supplies requiring prior authorization, please refer to your schedule of benefits.

# Your Prescription Drug Coverage

Prescription drug benefits are included in all plans. A mail order program is also available. Drug benefits are managed by Express Scripts.\* To get the most value from your drug benefits, you should take a drug that is covered under your plan.

## Covered Drug List

Your plan has a covered drug list, or formulary, that includes thousands of generic and brand drugs, but not every drug is covered. How much you pay for the drugs on the list depends on the plan you choose and the drug you buy. If you fill a drug that is not on the covered drug list, you could have to pay the full cost of the drug.

### Two things a covered drug list can tell you:

1. If there are other drugs you can take for your health problem that cost you less.
2. If there are any rules that you must follow before a drug may be covered.

## Find out if your drugs are covered before you fill

You and your doctor can check to see if drugs you take are covered at [www.lablue.com/pharmacy](http://www.lablue.com/pharmacy). If your doctor orders a new drug for you, ask if the drug is on your covered drug list before you go to the pharmacy.

*\*Express Scripts is an independent company that provides pharmacy benefit management services to Blue Cross and Blue Shield of Louisiana, Inc., and HMO Louisiana, Inc.*

## Zero Dollar Drug Copay Program

Our \$0 Drug Copay Program offers \$0 copay for certain drugs used to treat certain chronic conditions. Members do not have to meet a deductible before getting program drugs for \$0. Drugs in this program are regularly recommended to treat asthma, chronic obstructive pulmonary disease (COPD), coronary heart disease, diabetes, heart failure, depression and other common chronic conditions. The \$0 Drug Copay Program is available for copay-based pharmacy benefits. The program is not available for coinsurance-only pharmacy benefits. Go to [www.lablue.com/covereddrugs](http://www.lablue.com/covereddrugs) for a list of drugs in the program.

## Pay close attention to what your plan has. Is it a 2-tier or a 4-tier pharmacy plan?

This means that your plan has either two cost tiers or four cost tiers for drugs. Drugs in the lower tiers cost less than drugs in the higher tiers. To save the most money, start with a drug in Tier 1. If that one doesn't work, you can talk to your doctor about a higher cost drug in a higher tier, and so on.

| <b>2-Tier Pharmacy Plans</b>                                          |                 |                                                                                                                                                                                                        |
